

What is N2?

The Network of Networks (N2) is an alliance of Canadian research networks and organizations working to enhance national clinical research capability and capacity.

Bringing together clinical research professionals from across the country, N2 provides a common platform for sharing **best practices, resources and research-related content** to ensure efficient and high-quality research, integrity of clinical practices and accountability. N2's programs and services are designed to enhance clinical trial capabilities across Canada and provide these programs and services in the context of the overall Canadian clinical research infrastructure.

The organization is truly representative of clinical research in Canada and acts as a **national voice** advocating on behalf of a broad range of stakeholders that have an impact on the **efficiency and quality** of clinical trials conducted in Canada. Today, over 100 organizations representing **thousands of clinical research professionals**, from hundreds of sites and across numerous therapeutic disciplines have joined N2's initiative.

Members include organizations as varied as research networks, universities, hospitals, government entities and industry.

The breadth of N2's member organizations and the depth of their collective experience have enabled N2 to develop **strong product offerings** and become an important voice in the national clinical research debate.

N2 is a not-for-profit corporation.

Our Mission: To Enable And Enhance Clinical Research Capability And Capacity In Canada
